- Time Management

Academic Projects

- **Title:** Bug Tracking System
- **Objective:** To encourage individual and group of developers to track bugs generated/reported in their personal and group projects.
- **Description:** Bugs and defect have been in existence since software development has started. Each time an application is made, it is obvious that some bugs or defects can be encountered. This is where Bug Tracking System comes into effect.

- **Title:** Sentiment Analysis of YouTube Comments
- **Objective:** To Understand User Engagement in Promotional Videos.
- **Description:** YouTube is one of the great places to advertise a product for any creator where the likes-dislikes ratio plays a vital role in finding the right creator and asking them to advertise the product. The like-dislike ratio helps to understand how much user engagement will be received on any particular channel.

Seminars/Certifications

- National Education Policy: A Gateway to Academic Excellence
- Dexterix 3.0
